

PRODUCT INFORMATION AND TECHNICAL DATA SHEET

Organic Fertilizers

We've selected only the richest sources of Nature's nutrients to blend into Talborne Organics Fertilizers for your growing success.

Vita & Eco Organic Range

25kg & 500kg

Vita Grow® 2:3:2 (16)
 Vita Fruit & Flower® 3:1:5 (18)
 Vita Green® 5:1:5 (16)
 Vita Veg® 6:3:4 (16)
 Vita Nitro Boost® 8:1:1 (10)
 Vita Bone Phosphate 4:10:0 (14)
 Eco-Green Seedling Food 6:2:5 (13)

INPUT:
Organic EU
(CU 833864)

APPROVED INPUT:
National Organic
Program NOP

Scientifically formulated complete fertilizers which deliver high feeds of N, P, K (Group 1), minor-, micro-nutrients and carbon for productivity and quality. Organic nutrients are slowly released. Organic materials originate from animal and plant sources and natural mineral deposits. Organic Nutrients are not water soluble but are instead released as & when plants require them, leading to better nutrient balances in the plant and minimal losses due to leaching.

COST SAVING
Value for Money

SAFETY ASSURANCE
No Toxic Residues

ADDS CARBON
Promotes Soil Life

BENEFITS OF TALBORNE ORGANIC FERTILIZER:

- ✓ Sustained release – Organic nutrients are released to the plant by the soil biology and other natural mechanisms.
- ✓ Reduced applications, no leaching or loss through volatilization.
- ✓ Adds natural carbon, builds soil fertility and promotes soil life.
- ✓ Increased yields and better crop quality from fertile soils.
- ✓ Improves soil structure, oxygenation, water retention and root penetration.
- ✓ Improves soil health leading to crops which are more resilient to climatic stress.
- ✓ Will not burn plants when used as directed.
- ✓ Easy application granules for spreading, or meal for mixing into growing mediums.

NB: Soil analysis and crop requirement will determine which fertilizer should be used for optimum results.

Application rate: Should be based on soil or leaf analysis and adjusted according to the crop and yield requirements.

It is recommended to get advice from a suitably qualified person.

TALBORNE ORGANIC FERTILIZERS:

- ✓ Approved Input for Certified Organic EU & NOP by Control Union
- ✓ Complete fertilizer, with high N:P:K, minor- and macro-nutrients
- ✓ Sustained Release fertilizer (SR) for long-term feed
- ✓ Adds natural carbon and builds soil fertility and microbial life
- ✓ Environmentally friendly, improves yields, enhances crop quality for sustainable growing
- ✓ Easy application granules
- ✓ Apply all seasons, all weather conditions, saves on water

AVAILABLE AS MEAL OR GRANULES

Packaging:

25kg bags or 500kg bulk bags.

Storage:

Store in a dry environment.

Product contains organic nutrients.

Warranty:

Great care is taken to ensure the quality of our products; however, Talborne Organics cannot control the conditions of use or guarantee the suitability of the product for each unique application, therefore Talborne Organics cannot be held liable for the results, injury or damages resulting from the use of this product alone or in combination with other materials. If the product is proven to not comply with the technical specifications or is damaged, we undertake to replace it.
